ERASMUS+ JEAN MONNET MODULE EU BEST PRACTICE OF LIFE CYCLE ASSESSMENT, SOCIAL, ENVIRONMENTAL ACCOUNTING AND SUSTAINABILITY REPORTING

101047667 – EULASTING –
ERASMUS-JMO-2021-HEI-TCH-RSCH

EDUCATIONAL COURSES

Master level / PhD level

- "Life cycle assessment: EU best practices"
- "Social, environmental accounting and sustainability reporting"
- "Sustainability reporting and its assurance"

Business representatives and authorities

- "Sustainability reporting and its assurance"

THE PURPOSE OF THE PROJECT

Development of human potential through:

- **Popularization** of research on life cycle assessment, social and environmental accounting and sustainability reporting among a wide range of young people, scientists, public activists, government representatives and other stakeholders;
- **Implementation** of EU experience on LCA, SEA and sustainability reporting;
- **Formation** of the knowledge base on the policy and practice of the EU in relation to LCA, SEA and sustainability reporting;
- **Formation** of the European level of ecological, environment-friendly values, competences and behavior.

PROSPECTS OF THE PROJECT

- Find out more about LCA, SEA and sustainability reporting in the EU;
- To prepare future leaders of the business and society in Ukraine, who will bring about changes in the environmental and social business discourse in line with the EU experience;
- Increase the level of responsibility and awareness of contemporary social and environmental problems and the methods, techniques and tools that business should resort to in order to mitigate these problems and get on the path to solving them;
- Development and implementation of training courses (online and offline, within the curriculum and certificate courses) on LCA, SEA and sustainability reporting, as well as providing assurance about it;
- Introduction of the European experience of ensuring compliance with social and environmental standards at the level of the business entity into the socio-political discourse in Ukraine;
- Expanding the knowledge of various target groups of the project about the system of LCA, SEA and sustainability reporting in the EU;
- To initiate the creation of centers for the study of European policy and practice of LCA, SEA and sustainability reporting;
- Involvement of a wide range of interested parties in active participation in the study, discussion and application of European policies and practices in the field of LCA, SEA and sustainability reporting.

THE PROJECT PROVIDES

- **EDUCATIONAL COURSES** (both online and offline; both within the curriculum and certificate courses)
- Winter school "EU best practice of life cycle assessment, social, environmental accounting and sustainability reporting"
- Seminars, debates, open lectures
- Promotion of European studies in the field of life cycle assessment, social and environmental accounting and sustainability reporting
- Research on EU's life cycle assessment, social and environmental accounting and sustainability reporting policies and practice
